

BECOME A WATER WARRIOR

1. FAUCET FURY

- Turn off the water when you are brushing your teeth or while you lather your hands while washing.
- Install low-flow WaterSense aerators.

2. BATH BASICS

- Showers use less water than baths. Aim for 5-minute showers.
- Install low-flow WaterSense showerheads.

3. TOILET TRICKS

- Don't use your toilet as a trash can.
- Install low-flow WaterSense toilets.
- Check toilets for leaks. If you hear water running, let an adult know.

4. KITCHEN KICKING

- Use a pitcher if you like to drink cold water.
- Don't leave the faucet running when you're not using it.
- Scrape dishes before putting them in the dishwasher.
- Only run the dishwasher when the load is full.

5. LAUNDRY LOADING

- Select the right load size for the amount of clothes being washed.
- Wash full loads of laundry.
- Don't wash more than you need to.

6. OUTDOOR OPTIMIZER

- Place water toys or sprinklers on the lawn when you are playing.
- Cover pools and hot tubs to reduce evaporation.
- Use a nozzle on your hose when you are helping to wash the cars.
- Use a broom instead of water to clean your sidewalks or driveway.

7. LEAKS

- Tell an adult when you hear or see a leak.
- Toilets are the main source of leaks.
- Faucets and hose bibs can also have leaks.
